

Finding Inspiration

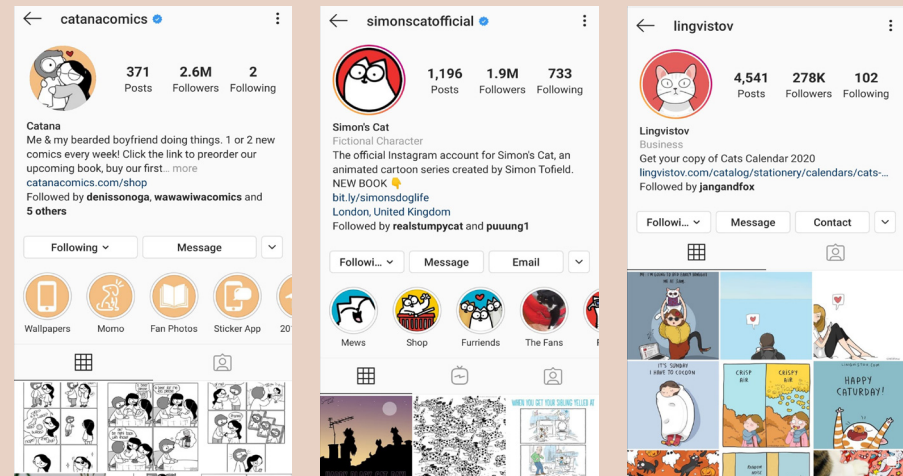

Instagram

I am more than sure that Instagram is the biggest source of my inspiration weather it comes to drawing, creating or just basic everyday life. For character design I have chosen 3 of my most favorite accounts:

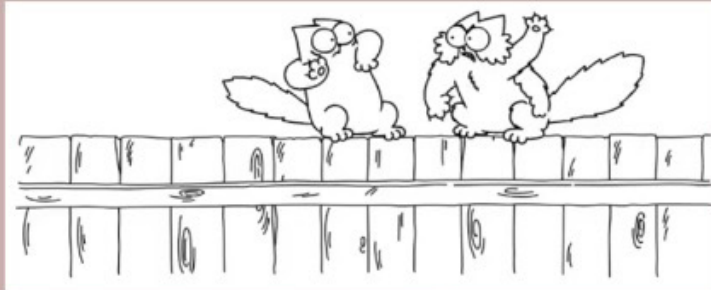

@catanacomics
@simonscatofficial
@lingvistov

What I admire the most are the very simple basics of each of the mentioned accounts. Each post is created by a short story (mostly inspired by everyday life) expressed through uncomplicated drawings. The main idea is always clear and mostly funny in different ways.

Characters

All 3 of my characters are in a close relationship while it displays a couple with their cat which 'rules' in their lives.

Most of the sketching was done mostly for the cat while I found it the most challenging to create in a way I have visualized it.

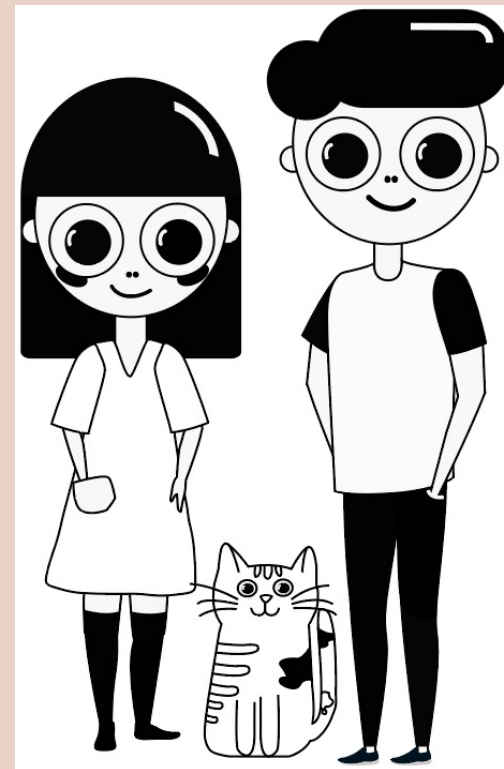

As for the main character I have chosen the cat. The cat's character is supposed to be dominant in order to create funny situations that are life-like.

The first version of my characters was colorful and very simple which after a while seem to me very childish.

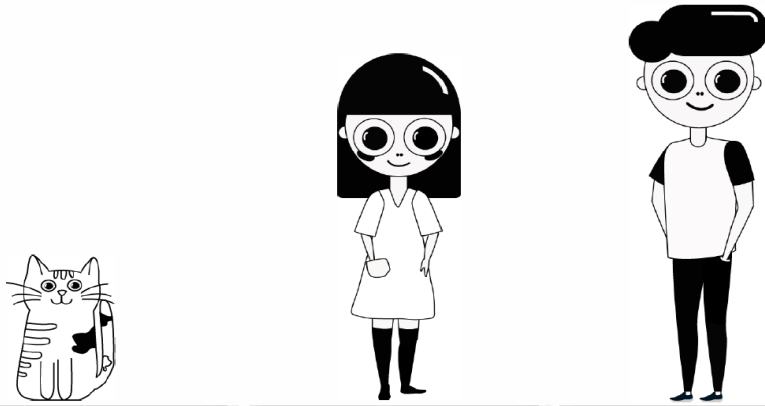

Therefore, I have changed them into black and white version with bigger eyes and heads to make the look more appealing
